Calculating VAT relief for those exempt on medical grounds

Current VAT rate @ 20%.

Calculating the amount of the VAT relief can be bewildering, it is the amount of VAT that is payable and already included in the purchase price of your wig. This amount is calculated differently to that of a normal discount. As this is difficult to understand please see the following example:

A wig purchased for £100 costs you £83.33 plus VAT. The VAT currently at 20% amounts to an additional £16.67 making a total of £100 for the wig purchase.

Vat relief on a £100.00 wig amounts £16.67. It is not calculated by taking off 20% discount from the purchase price of £100 which would be £20.00.

The formula for extracting the current 20% rate of VAT from your purchase is shown below simply divide the wig price by six (example for a wig costing £100.00)

£100.00 divided by six = £16.67 (this is the inclusive amount of VAT in a £100 purchase)

Please Note!

VAT exemption is available to customers who wear wigs for necessity reasons. Customers who require wigs due to Alopecia, Chemotherapy treatment or any other medical condition leading to hair loss and this condition has been confirmed by a GP are classed as necessity wearers. If any of the above applies to you, you are entitled to receive the VAT off the cost of your wig at the time of purchase. Please note: VAT exemption applies to full head wigs only and does not apply to accessories.
